Acrylic table sign, 10 x 8 in: template

This page is 10 x 8 in, the print size. Nothing is cut off: the edge of the page is the edge of the print.

Blue dashed line: the safe area. Keep words, logos and your QR code inside it.

Your HelmQR code: at least 2.5 in wide (the squares, not the margin around them), like the dashed square.

Photos: at least 150 dpi at this size, for example 1500 x 1200 pixels for the whole page.

Cover or delete these guides before you export: anything left on the page is printed. Then upload it as a PDF or a PNG.

QR code, at least 2.5 in
